

InstaClad

All Weather EWI System

only from InstaGroup

NEW
TONGUE & GROOVE SYSTEM

An innovation for external wall insulation

Install in inclement weather – reduces downtime and lost production

Modular system for a fast, effective solution

New Tongue & Groove insulation board joints prevent heat loss

Works in a wide range of temperatures from -10°C to +30°C

Immediately impact and fire resistant

BBA Approved

InstaGroup

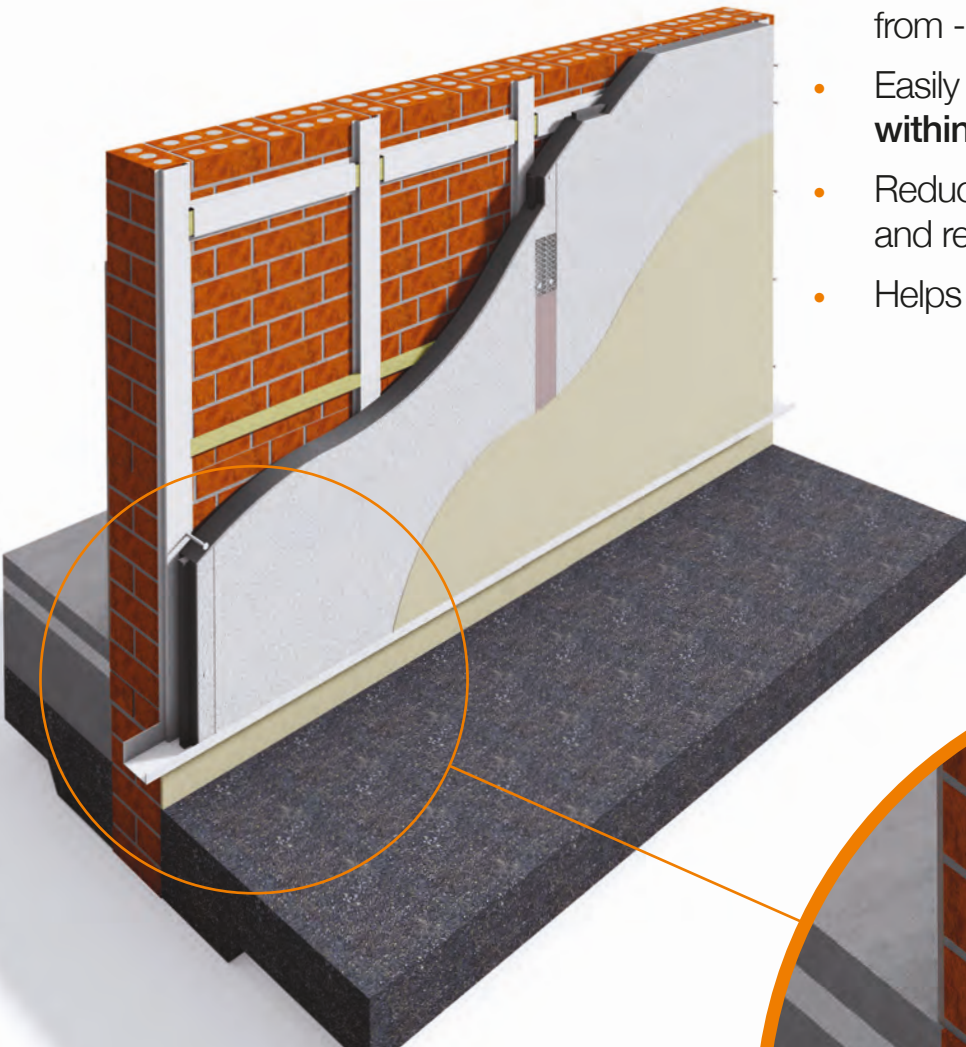

How it works

InstaGroup now offers one of the fastest solutions for installing the highest quality external wall insulation.

InstaClad All Weather System goes on whatever the weather, protecting your projects from the delays and additional costs caused by rain or adverse conditions.

Reduces disruptions to building schedules

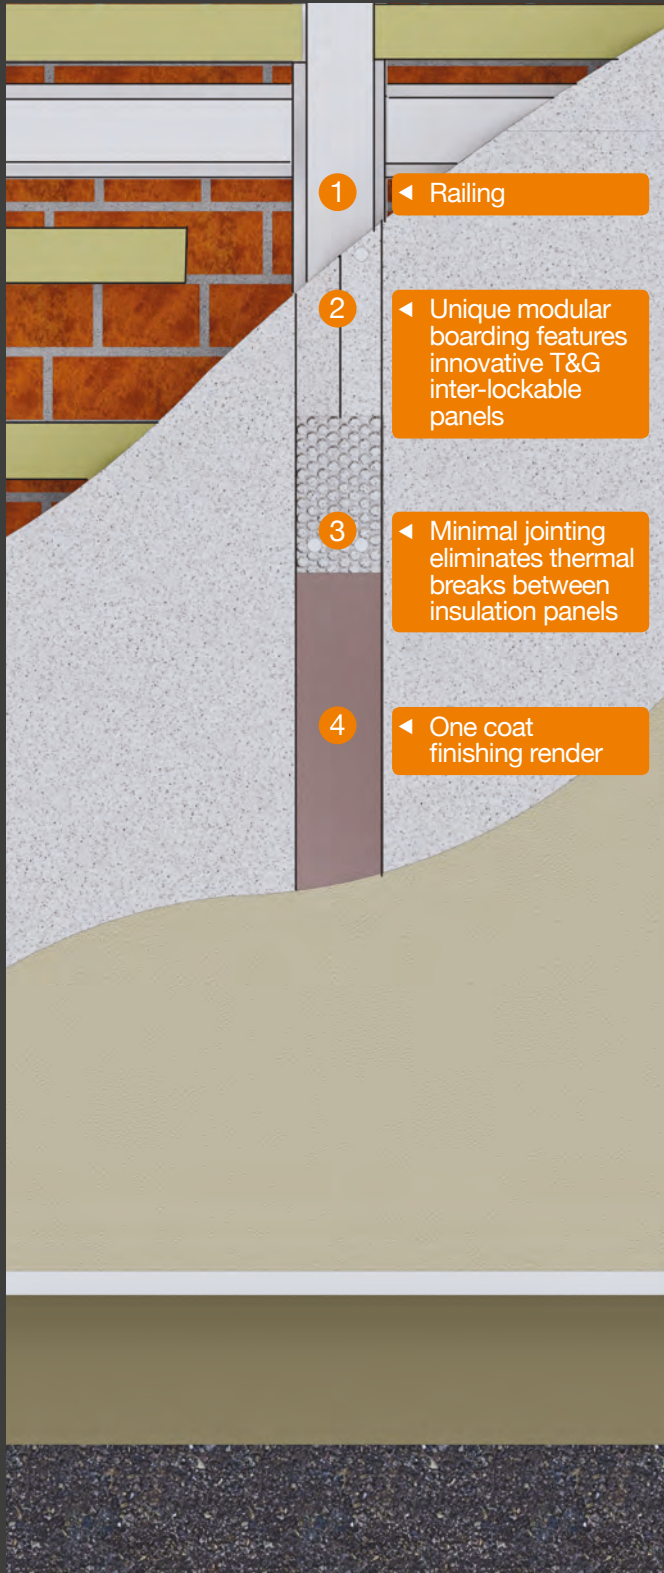

- New T&G modular system makes installation faster
- Installation is not weather dependent
- Can be fitted in temperatures ranging from -10°C to +30°C
- Easily applied render coat – rainproof **within 30 minutes**
- Reduces scaffold/equipment hire time and related outlay
- Helps keep site costs on budget
